

*Peak Property Management strives to provide a positive experience for all of our clients, whether a property owner, tenant or HOA member. All of our managers, employees and technicians are involved in continuing education classes and seminars throughout the year to keep up to date on current issues. At any one point in time, combining the numbers of owners, tenants and HOA members, we may have 2,000 clients and experience has taught us that we cannot please everyone. We have found the key to working with so many, often diverse, people is consistency. We maintain the same policies, forms and contracts for everyone. We will not alter any of our contracts or deviate from our policies for any reason, which naturally, works for most people, but not for everyone. Our goal is to be fair, follow the rules set forth by Fair Housing and the Montana Landlord/Tenant Law, preserve property value and promote responsible enjoyment for tenants.*
